Questions even got more tricky than in the first quiz, which makes this game officially the hardest one available. The creator Splapp-me-do has done everything to make sure you won't succeed in completing this quiz. 120 questions are waiting for you to be answered. Good luck! This original game works without Flash on any device. Did you answer all questions? Play The Impossible Quiz. Controls: Use your mouse to answer the questions About the creator: The Impossible Quiz was created by Splapp-me-do. He also created the original The Impossible Quiz and the Christmas themed quiz: The Impossible Quizmas. Special thanks Naleksuh found most of the bugs in this game, and they were fixed thanks to him! On this page you will find the impossible quiz 2 level answers for all existing levels. You can play the game here. The Impossible Quiz 2 is a really difficult game featuring over 120 questions with another 60 questions recently added. Each question has variations and power ups like: Skip, Fusestopper (a creature that allows you to deactivate bombs. The impossible quiz gives you a total of 5 lives with no way to save or any checkpoints. Once you end your lives you have to start over. (What were you expecting ? It's called the Impossible Quiz 2 not the Easy Quiz). New levels allow you to use the keyboard now and the new game is now available on IOS. There has been information that The Impossible Quiz 3 is in the works and we are eager to play it. The game became popular after a lot of gaming youtubers played the game on stream. We gathered to this post the answers for all the levels and questions of The Impossible Quiz. Please let us know if any of the answers are not updated and differ from the actual game walkthrough. The Impossible Quiz 2 Level Answers Level 1. Up his sleeves (armies = arms, sleeves = sleeves) Level 2. Paint (green paint, because otherwise there wouldn't be green to see) Level 3. Earth (the rest of the options are actually candy bars) Level 4. American (A merry can) Level 5. Type what Frank tells you to do (either "arse", "carrot", or "uper") Level 6. 8 ("Sentence" has 8 letters) Level 7. Press the right arrow key (on your keyboard) Level 8. 10 letters in ("The Great Wall of China" starts after ten letters into the question) Level 9. Click the creature several times to make it evolve. Level SKIP: Click the bubble on the right side. Level 10. Click and drag the words "a penguin" to reveal the answer. Level 11. Don't touch the blue parts of the maze. First head up, then to the left, click and hold the left mouse button to grab the key, then head over to the right and put it into the lock to proceed. Level 12. Fine (even reading the question upside-down, the answer is still the right way up) Level 13. Lederhosen (a hosen is his name in the credits) Level 17. Touch the brown balloon with your mouse, but don't touch any of the red ones. It's best to start with your mouse at the top of the screen then move into position Level 18. Fly sandwiches (a spider likes eating flies, a man likes eating sandwiches) Level 19. Fusestopper (it says so in the instructions of this quiz) Level 20. Turn on the light then pop all of Slick's zits. (12) Level FUSESTOPPER: Pop the purple zit on Slick's visible ear. Level 21. 30 (questions in The Impossible Quiz Demo, not The Impossible Quiz) Level 22. Pink Clouds (candy floss looks like pink clouds) Level 23. Win the Tic-Tac-Toe game by dragging the circle around 23 to the appropriate spot. It's on the 2nd column at the bottom. Level 24. Space (it's located under the "sea", or "C" key) Level 25. When it's a jar (a jar = ajar, which means open) Level 26. You run. You run so far away. (taken from the Demo of the first Quiz; reference to the 80s song "I Ran (So Far Away)" by A Flock of Seagulls) Level 27. Press 1 on the keyboard. (5) Level 28. This is Sparta! (location pointed in the map) Level 29. Move the mouse to the small area to the right of the stream of water to find a green gem. If you accidentally uncover a bomb, drag it to the water to put it out. Be careful; there are some 1-second time-bombs! Don't just drag the bombs screen, it will still cause a GAME OVER. (1-5) Level SKIP: Find the green bomb under RC in "search" and let it explode. ("3") Level 30: You'll have to use the sink to defuse the bombs, instead of the Fusestoppers. Level 30. Click the 0 in 30. (A Rolo is a chocolate candy with no holes) (10) Level 31. Drive down the M4 (two whales = to Wales, to which you get by driving the M4) Level 32. Click the finger ("pick nose", as in "picking your nose") (10) Level 33. Click the 33 (which looks like a pair of bums) Level 34. Click the "Death" button (pressing the word "this" in the question's message will give you a Game Over; don't get tricked!). (10) Level 35. Aim for the face (you play darts by aiming at the face of the dartboard, not of the babies) Level 36. Tequila (to Cron's Orion's Belt constellations, and the Belt is literally located on Orion's starry waist!) Level 47. Universal Serial Bus (It's in space, it's carrying cereals, and it's a bus) Level 48. USB Ports (where Universal Serial Buses pick up their passengers) Level 49. Follow Frank's directions. Be careful not to type anything if it doesn't say "Frank Says" at the top, though. (It's either 4-3-9-Enter, which gives you a picture of Dennis the Square Tomato; Delete loads of times, which gives you a lemur with a Santa hat; Ctrl-Space-Up-Alt, which gives you a pic of a gross stick figure; or X-Q-B, which gives you a pic of Chris). Level 50. Part 1: Click the Badly Drawn Dog's mouth to chew the bone (10); part 2: Rub your mouse over him to "pet" him (6) Level 60: There are TWO bombs in here. A Fusestopper can't be bothered to deal with two of them! Level 51. Click "came last" (it will turn into "CAMEL ast") Level 52. Move the mouse back and forth over the lamp to clean it. You can do it up and down. Level 53. Click next to the G (notice it looks like an arrow, which is uncommon on the quiz.) Level 54. There is a mouse's tail near the bottom right corner. Drag that mouse onto the circle, so that it gets caught. (6) Level 55. Pokémon (to get Pikachu onto a bus, just "Poke him on") Level 56. lol micropenis (located on the duck's crotch) Level 57. Four (the answer "FOUR" has FOUR letters) Level 58. Press Space on your keyboard (since it's displaying outer space) Level 59. Click and drag the 'R' in "varnish" away from it (so that it says "vanish", before vanishing itself) Level 60. Just keep dragging the cat down as quickly as you can. (10) Level 61. To get to the other side (this will always be the reason the chicken crossed the road) Level 62. Edam (a kind of cheese that happens to be the word "made" backwards) Level 63. Press the "Quality" button on the bottom of the screen (because it has "Q", the seventeenth letter of the alphabet) Level SKIP: Type "Q" on your keyboard. Level 64. Click on all six differences between the Spatula images: the planet in the background; a very small cloud missing on the right side; one of the mountain tops near the missing cloud is pressing the spatula on its peak; a crease under the Spatulon's eye; the smallest tooth closest to its cheek is missing; and at the very bottom near its right hand the ground is a different colour. (You must click on the differences on the image on the right) (15) Level 65. Cron's Blood (a cow's favourite beverage) Level 56. Click all the lighter coloured leaves of the body. (10) Level FUSESTOPPER: Click the flower on its necklace Level 67. Intricate maze with invisible cursor: Start by going up and to the left; then, take the narrow lower path until the very end, and put your mouse on the green button; a message in the middle of the screen will appear, saying: The code to turn off the universe: 8-2-7-5-, which you must remember for Question 100; take the shortcut back to the beginning of the narrow path, but head up instead, to where the key is located. After grabbing the key, go the right and then down, avoiding getting crushed by the blocks, and then open the lock with the key. Level 68. Checkpoints are for the weak and mentally challenged, (these Quizzes are known for NOT giving you checkpoints!) Level 69. Click on the bomb's counter when it's at 2 (it's the result of the subtraction); by the way, LOL 69 (10) Level 60: How are you gonna find the answer without the bomb? Level 70. [WATCH OUT] Click on Chris, then memorise how many times he gets punched before fainting. Level 71. 28.8kbps modem (insanely great thing) (10) Level 72. Violence (Violence the Strawberry, a character by Splapp) Level 73. Mash the bush repeatedly to cut it and give it a new shape (8) Level 74. No (question taken from the Demo of the first Quiz; if you click "Yes", you'll get sent back to the loading screen and be forced to restart) Level 75. Refer to Q70, how many punches Chris took before fainting. Level 76. AIDS (Splapp admitted in his Tumblr that this question has no actual logic or pun, it's just random) Level 77. A fat bloke (likely to see in America; question taken from the Demo of the first Quiz) Level 78. Move the mouse over the handle until the Phlovomite's head pops out of the box (15) Level 79. Drag the "on" in "dragon" ("Drag-on") to the circle. Level 80. A corpse's bra (blood turns blue (deoxygenated) when you die, hence the blue tits of the question) Level 81. Grey goose (9th picture at the bottom right, that's an answer) Level 82. Click "Obvious" after the bomb starts flashing, when it gets to 3 seconds (8) Level 83: You NEED the timer of the bomb reaching 3 seconds or lower to click the answer. Level 83. Drag the ground away, then click next (7) Level 84. Click blue, red, blue and yellow (referencing the colour code in Question 50 of the first Quiz; it's also given as a Tip of the Day in this game's loading screen) Level 85. NEVER! (Splapp stated at the end of the credits: "I'm not making any more, two of the quizzes is enough!") Level 86. Type "U" on your keyboard (letter of the alphabet that comes after "T") (5) Level 87. [WATCH OUT] Click the egg that was pointed at by an arrow instead of the carrots. Level 88. Don't do anything (the bomb will just say zero, then read "OH") ("15") Level 89: It's a dud bomb, therefore you can't disintegrate it. Level 89. I'd have thought at least one of them would have ducked (the people mentioned in the question's message walked into a bar, an iron bar, that is, which makes you wonder why didn't they dodge it) Level 90. TL;DR (don't read the message; a 1-second bomb will appear after 25 seconds) (...1) Level 91: The bomb won't appear until after a while, and it's just too big to be defused. Level 91. [WATCH OUT] Click on Amy Rose's head when the aim appears. BOOM! Headshot! (scene from Splapp's animation "Sonic Breaks his Neck") Level 92. None - I'm on question 92 of the Impossible Quiz 2 (if you have made to this question, you probably don't have a life at all) Level 93. Click the phrase "the op one out" (not Dennis the Square Tomato) (7) Level 94. Silence (if you say "silence", you break the silence) Level 95. Click the numbers in the following order: '-15,1', '4', '0', '2', '15', '15,1', '76', '151', then wait or click the

arrow that reads "Enough" that will appear on the top left of the picture. (15) Level 96. Click your current number of lives at the bottom of the screen (smaller than all of the four options you are given) (5) Level 97. Click "K" in "BLACK" (the K is in the center of the "black hole" from the amount of times lemur's appeared or been mentioned throughout the Quiz!) Level 99. Burst 99 red balloons. Popping a blue one will make you lose 1 life; popping a green one will reduce the red balloon counter by 1, and the bomb rockets will KILL YOU! (song "99 Red Balloons" will play in the background afterwards) Level 9. Fusestoppers don't know how to deal with rockets. And even if they did, there are way too many of them. Level 100. Click 8-2-7-5 then click the red flashing lever (the code is from green button in Question 67) (10) Level 101. Type the whole alphabet from "A" to "Z" on your keyboard. (10) Level 102. Drag away all the pictures, and then click Chris' face in the miple. (7) Level 103. Red (the blood is the collar, and blood is red; it could also be referring to his actual collar, which he's wearing on the credits, accessible from the main menu) (8) Level 104. Clean the windows; a Fusestopper recommended. (15) Level 105. Click the switch behind the question number. Once you click it, a picture of an animal will appear. (10) Level 106. Remove the eye of the left Sigworminator and put it on the metal-thingy legs in the miple to make eye on legs, then drag the kiwi in the hand into the place where the eye originally was. (10) Level 107. Question repeat from this quiz, with the respective original options being omitted. Click on where the answer was in, including your number of lives or the question number if it's either of those cases. (10) Level 108. Follow the green arrows, not the red ones, and click Chris's head (it's best to remember the path, sometimes, and the green arrows are the right way, while the red arrows point in the opposite direction) (10) Level 109. Graphite (graph fight) (15) Level 110. Click all the red squares (remember, it's not always the same). (15) Level 111. Type: "tebahpla eht" (That includes the space key) (10) Level 112. Drag the can of Cheesy Fish-mush to the can opener. Use the mouse to operate the can opener by going round and round. When the can is open, drag it to the dish (15) Level 113. Click brown (Chris' fur's colour, also used as the question colour; rather straight-forward) Level 114. Use the left and right keys repeatedly of the keyboard to brush the teeth (12) Level 115. Caturday (Chris is a cat, so of course Caturday is his favourite) (10) Level 116. Drag the pieces into the unfinished fusestopper. (10) Level 117. A question from the demo of the original game, randomly chosen from those that didn't make it into neither of the two full-length games (answer normally). Level 118. Don't do anything. (If you press tab in any of the quizzes except the Demo, it's Game Over) ("10") Level 119. Type "horse", then "peanut" then "chihuahua" before each Frank Bomb explodes. Level 9: Frank Bombs are immune to Fusestoppers. Level 120. Random reference to a previously answered question from this Quiz. Click on the number that represents said question and you will win. (You cannot skip this question as Chris will put his hand over the skips and his hand will say "NO CHANCE") (10) ex. 1: What was the first balloon question? (Q 17) ex. 2: Which is the second maze question? (Q 39) ex. 3: One question had a red question number. Which was it? (Q 43) ex. 4: Which question was Longcat in? (Q 60) ex. 5: One Hit Wonder (Q 99) ex. 6: Burnt face duck (Q 56) ex. 7: There are two "Frank Says" questions. One is #5. Which is the other? (Q 49) ex. 8: Which question did Mars first appear in? (Q 58) ex. 9: LOL (Q 69) ex. 10: Ponk Plucking (Q 66) ex. 11: Which question was the second Fusestopper on? (Q 41) Level The grade system varies depending how many lives you lost, how many power-ups you've found and how many of them you used. Starting with a score of 4, gaining 1 point for each power-up found, and losing 1 point for each power-up used and life lost, here are all the possible grades and their prerequisite scores.
